PARAS RAJ LALWANI

Software Engineer & Developer

Hyderabad, Sindh, Pakistan | +92 301 3524476 | parasraj899@gmail.com | linkedin.com/in/paras-raj- | parasraj35.github.io

PROFESSIONAL SUMMARY

Final-year Software Engineering student at SZABIST Hyderabad, building secure, reliable full-stack and mobile applications, including finance apps with PIN/biometric security and transaction-safe data handling. Experienced in Flutter, PHP/MySQL, and Java, with a 6-week AI automation internship and job simulations in data analytics (Deloitte) and cybersecurity (AIG). Seeking to contribute to a bank's digital and technology team.

PROFESSIONAL EXPERIENCE

AI Automations Intern – DevelopersHub Corporation *28 Aug 2026 – 9 Oct 2026 (6 weeks)*

- Completed a 6-week AI Automations Internship Program with an exceptional performance rating.
- Received a Certificate of Achievement and a Best Award for outstanding performance, skills, and significant contributions.

CORE SKILLS

Programming Languages: C++, Java, PHP

Web & Database: Full-Stack Web Development, PostgreSQL, Database Design

Frameworks & Platforms: JSP, Apache Tomcat, Maven, Apache NetBeans

Tools & Practices: Git (version control), Debugging, Object-Oriented Design, MS Office

Professional: Remote Collaboration, Asynchronous Workflows, Problem Solving, Technical Communication

TECHNICAL PROJECTS

Hisab – Offline-First Android Finance App

- Developed an offline-first Android finance application in Flutter with all data stored locally in SQLite.
- Implemented core modules for account tracking, debt/lending ledgers, category reports, and PDF export.
- Architected a Riverpod-based project structure with PIN/biometric lock and versioned SQLite migrations.
- Deployed a live demo, accessible at https://hisabapp.github.io/

Sky Journey – Travel & Tourism Booking Platform

- Designed and developed a full-stack travel booking platform featuring destination listings and curated tour packages.
- Built responsive booking interfaces backed by PHP server-side logic.
- Integrated a SQL database to manage tour packages and customer inquiries.
- Deployed a live demo, accessible at skyjourney.freehosting.dev/?i=1

Accounting Management System (Java / JSP)

- Built a Java web application using JSP, JDBC, and Maven, designed for deployment on Apache Tomcat.
- Implemented ledger management, voucher handling, and transaction processing modules.
- Developed financial reporting features, with Microsoft Access as the database.
- Structured the system with a modular architecture for maintainable, easy-to-extend code.

Offshore – Marine & Offshore Business Website

- Developed a complete business website for an offshore services company with a modern, responsive interface.
- Built dynamic PHP pages integrated with a SQL database backend.
- Optimized site performance, accessibility, and cross-browser compatibility.
- Delivered end-to-end full-stack development, from design through deployment.

EDUCATION

BS in Software Engineering (Final Year) – SZABIST, Hyderabad *2023 – Present*

Diploma in Information Technology (CIT) – Government College of Technology (Boys), Hyderabad *2021 – 2023*

Intermediate in Pre-Engineering – Grade A (77%) – BISE, Hyderabad *Passed 2022*

Matriculation in Computer Science – Grade A (76%) – BISE, Hyderabad *Passed 2019*

CERTIFICATIONS

- AIG – Shields Up: Cybersecurity Job Simulation, Forage (June 2026)
- Deloitte – Data Analytics Job Simulation, Forage (July 2026)
- AWS – Foundations of Prompt Engineering, Amazon Web Services (July 2026)
- IBM Cognitive Class – SQL and Relational Databases (July 2026)
- Forage – Software Development Job Simulation (June 2026)
